

SAMSUNG E&A TECH FORUM 2026

SAMSUNG E&A

Continuity

Diversity

Velocity

Time	International Conference Hall	Continuity Zone	Technical Seminars I		Technical Seminars II	
			C1	C2	M10	M11
09:30	Opening Remarks		International Conference Hall Opening Remarks			
09:40	LNG Technology Honeywell					
10:00	Harmonizing Energy Transition with Conventional Energy Development Petronas					
	Break Time					
10:30	Methane Pyrolysis - A New Way to Cost Competitive Hydrogen and Valuable Carbon ExxonMobil		US CCS BOO Opportunity Crescent / Honeywell UOP / SE&A	PM Lounge : Project Status Sharing Platform SE&A	Yokogawa: KBC Solution for Decarbonization Yokogawa	Baker Hughes: AI-Enabled Industrial Enterprise Solution Baker Hughes
11:00	[Panel Discussion] Energy Addition in an Era of Disruption: Navigating the Supply Shock and the New Economics of Resilience		Technology as a Catalyst for Energy Realism and Global Progress Topsoe	Technologies for Municipal Wastewater Reclamation and Reuse SE&A		
	Samsung E&A LNG Road Map SE&A		Break Time			
11:30	New Green H2 Solution - CompassH2 Nel, SE&A	Reduction in Steel, Concrete and Pile Quantities at LNG Facilities SGH	Process Engineering for the Future Emerson	Innovative Structural Frameworks for Semiconductor Mega-Projects SE&A	Introducing NovaSAF - Production of SAF from Biogas Worldwide Syzygy Plasmonics	
12:00	[Panel Discussion] Green Hydrogen: Beyond Net-Zero, Toward Energy Independency	Large Module Manufacturing Technology and Yard Commissioning Experience COOEC	The Evolution of Safety Diagnosis KGS	Smart Operations Strategy: Enabling Real Time, Data-driven Value Creation SE&A		
		LNG PJT Experience & Construction Technology CCC	Spool Search AI SE&A			
12:30		Cryogenic LNG Tank Engineering & Construction KOGAS	Air Liquide Technologies for Energy Transition Air Liquide	Beyond the Plant: Unlocking Value Above Underground STPs SE&A		
13:00	Lunch Time					
14:00						
14:30	Sustainability in Aerospace Boeing	High-Mn Steel Technology & Experience POSCO			Honeywell: LNG End-To-End Solutions Honeywell	Emerson: Software Defined Control & Ethernet-APL Emerson
15:00	The Potential of Algae - New Energy Euglena	Modularization in LNG Projects and BH Experience Baker Hughes				
	Distinguished Features of F-T SAF DG Fuels	[Panel Discussion] Eng/Fab/Vendor Synergy Opportunity				
15:30		Strategic Technology Collaboration SE&A				
	Break Time & Lucky Draw					
16:00	Journey to Enterprise AI Palantir					
16:30	[Panel Discussion] Boosting Productivity with AI					
	Closing		International Conference Hall Closing			
17:00			Reception
